f RILCA Linguistics Program, Mahidol University

Research Institute for Languages and Cultures of Asia (RILCA), Mahidol University
999 Budhamonthon Sai 4, Salaya, Budhamonthon, Nakhon Pathom 73170

The program aims to produce graduates with multilingual and multicultural knowledge based on linguistic research who can apply and integrate knowledge in linguistics research with other fields of science. They should be able to propose guidelines for development as well as solve social problems related to language and cultures, in order to enhance the understanding of the diversity of society in the context of linguistic and cultural pluralism in Asia. They should have skills in digital technology for analyzing language research and are aware of the use of online media to be aware of the current situation with sudden changes.

WHAT MAKES OUR COURSE STAND OUT?

1

The program encourages students to have direct experience in conducting research in languages and linguistics with guidance from instructors.

2

The course content covers both linguistic theory and applied linguistics. Students can choose to specialize in a variety of elective subjects to build their expertise

- Language technology
- Language and linguistics
- Language for education and sustainable development
- The group of theory of linguistics and school of thinking

3

There is an opportunity to exchange knowledge and keep abreast of research trends in language and linguistics with local and international experts.
