Sustainable Models for Recruiting, Training, and Retaining MLE Teachers

Plenary Session II
Please raise your hand if:

1. You are or have been a teacher

1. You are involved directly in an MLE project as a trainer, teacher, advisor, administrator, etc.
Please raise your hand if you agree ....

In my country...

• Most MLE teachers were trained through inservice workshops
• Most MLE teachers have a teacher’s license/government certification
• Education officials consider language/ethnicity when hiring/assigning teachers
• Courses about MLE are taught in universities/teacher training institutions
• There is a special route for people who did not attend university/teacher training institution to become government certified teachers
